Subject: ICVF Preliminary Application #C-MA-01

Dear Applicant:

We have received your preliminary application to the Inner-City Ventures Fund. The application has been given the number indicated in the Subject line above.

We are currently reviewing all preliminary applications and expect to select organizations to be invited to submit final applications on May 20, 1982. After that date, you will be notified of the decision regarding your application.

During this period of review we ask that you refrain from asking for information about your application. This will allow us to spend all of our time reading the large number of preliminary applications we received.

Thank you for the depth of interest you have shown in the Fund. We realize that the current economic climate calls for innovative solutions to our inner-city problems and we continue to rely on neighborhood organizations to seek those solutions.

Sincerely,

Mark S. Weinheimer
